

CardStudio™ Card Design Software

SEE MORE. DO MORE.

Fast and Easy Way to Create Great-Looking Cards

Zebra® CardStudio is an easy-to-learn, easy-to-operate card design and card issuance software suite. Whether you're creating simple or complex designs, CardStudio offers a version for every application with multiple editions: Classic, Standard and Professional.

Compatible with all current and legacy Zebra card printers, CardStudio makes designing, encoding, printing and connecting to databases fast and efficient.

Easy Upgrades and Demo Edition Available

Protect your investment with software license key upgrades — no hardware or dongle required. Upgrades from the Classic and Standard editions to the Professional edition are available with the simplicity of a software license key.

Face Snap plug-in is also available as an option for automatically cropping and optimizing images for production.

To download a demo version or to upgrade your software, visit www.zebra.com/cardstudio.

CardStudio is ideal for these applications:

- ID cards
- Access control
- Retail and loyalty cards
- Clubs and associations
- Schools and libraries
- Visitor badges

Cost-effective solutions

- Single-user workstation software key
- New network-based software licensing

CARDSTUDIO EDITIONS*
